

STATE OF IOWA, CERTIFICATE OF NURSERY INSPECTION

Office of State Entomologist, Ames, Iowa.

This is to certify that in accordance with Chapter 53 of the Acts of the Twenty-seventh General Assembly, as amended by the Thirty-first General Assembly, the nursery stock for sale by the Mount Arbor Nurseries, E. S. Welch, Propr., of Shenandoah, Iowa, has been inspected by a duly authorized inspector and has been found apparently free from dangerously injurious insects and plant diseases. This certificate is invalid after July 1, 1908.

Certificate No. 8.

H. E. SUMMERS, State Entomologist.

Dated, July 10, 1907.

TO THE TRADE.

In presenting our Seventeenth Annual Spring List, I wish to thank our many customers for the liberal trade extended us in the past and to assure you of our appreciation of your continued patronage, which we shall make every effort to merit.

We urgently request correspondence and trial orders from new customers, feeling confident that you will be well pleased with our stock and method of doing business.

We have added to our equipment and plant until we now have one of the most complete and best equipped nursery plants to be found anywhere, placing us in a position to give the best of service.

Stock Handled Under Cover. We have the exposure of stock reduced to the minimum. After digging, all stock is immediately sent to our large packing houses where it is graded, packed and handled under cover. Customers may rely on receiving stock in prime condition.

Large Assortment of Stock in Storage. Shipments made at any time.

Everything offered is young, thrifty, well-grown stock and graded to the highest standard.

We are always pleased to submit prices by letter on large lists of wants.

LOCATION AND SHIPPING FACILITIES

We are located in southwest Iowa, fifty miles from Omaha, on well drained land, and have a fertile soil that cannot be surpassed in the United States. Three railroads (C. B. & Q., Wabash and K. & W.) afford competition in freight rates and a rapid and convenient shipping outlet in every direction. Two express companies (Adams and Pacific) also give excellent service.

TERMS AND CONDITIONS

SHIPPING—Please give shipping directions, whether by freight or express; also route. If no directions are given, we will forward to the best of our judgment, without assuming responsibility, as all goods travel at purchaser's risk and expense. All freight shipments released to the value of \$5.00 or \$3.00 per cwt., according to classification governing unless otherwise instructed. Shipments can generally be made as early in the spring as customers may desire.

PACKING—Prices quoted are net, boxing and baling additional, for which we charge to cover cost. Particular care is taken to pack all stock in a thorough manner so that it will reach destination in prime condition.

TERMS—Cash or satisfactory security, except we extend the usual terms of credit to known, responsible nurserymen. Orders to be sent C. O. D. should be accompanied by one-fourth cash to receive prompt attention.

PRICES—The quotations in this list are for the wholesale trade only and limited to Spring 1908. Should prices change either higher or lower during the season, the prices made at the time order is accepted are expected to stand.

RATES—Fifty trees, of not less than ten of a variety, will be furnished at hundred rates; three hundred trees of not less than ten of a variety at thousand rates. Long lists of varieties of a few trees of a kind subject to higher prices. All trees above the $\frac{1}{2}$ to $\frac{5}{8}$ grades are tied in bundles of ten in grading. Order tens or multiples of ten of a variety as far as possible.

CAUTION—We accept all orders on the condition that they shall be void should injury befall our stock from frost, hail, fire or other causes over which we have no control.

Dealers wishing to pack on our grounds will find our facilities first-class and their orders will receive prompt attention.

CLAIMS—All claims for errors and deductions must be made within ten days after receipt of goods.

GUARANTEE OF GENUINENESS—While we exercise the utmost diligence and care to have our varieties true to name, and hold ourselves in readiness on proper proof, to replace all trees, etc., that may prove otherwise, or refund the amount paid, it is mutually understood and agreed between the purchaser and ourselves that we shall, in no case, be liable for any sum greater than the amount originally received for said trees, etc., that prove untrue.

For convenience in telegraphing a code word is given for each grade.

Correspondence and inspection invited.

MOUNT ARBOR NURSERIES,

E. S. Welch, Prop'r.

SHENANDOAH, IOWA, FEB. 1, 1908.

GRADE COUNT—For the benefit of customers we give a grade count of number, size and variety unsold at this date, of our principal surplus. Customers in ordering should give second choice in varieties and sizes as far as possible, especially if in a hurry for shipment, as we do not substitute or make any changes without permission.

APPLES

Most of our apples are grown three years, cut back to the ground the first year, result from this method is a tree unsurpassed in quality; being heavily rooted with a smooth body and good height.

ROOT GRAFTS

We make a specialty of this branch of the business during the winter season, and are well equipped for handling it.

As our supply of Apple Seedlings is limited, we will not be prepared to furnish the usual quantity of Apple Grafts; hence it is important to place orders early.

All Grafts are carefully assorted and only the best of material used in orders, so that customers can depend upon getting a first class article. Orders should be placed early to secure the best selection of varieties and to give the Grafts ample time to calous before shipment. After our Grafts are made they are tied in bundles of 100, each bunch carefully labeled and packed away to callous.

Our Piece-Root Grafts, are made with a six-inch Scion and three and one-half inch Root, the same style that we make for our own planting. For Whole-Root Grafts we use the entire Seedling, either a straight or branched Root as the customer may select. Any Style of Graft made to order.

In ordering please make list of varieties for 100 or multiple of 100 of a variety. Smaller quantities at hundred rates. Samples sent on application. **Grafts Boxed Free.**

We advise planting grafts at the earliest date in the spring, season will permit, to secure best results.

The Native Plum Root is considered the hardiest and best stock on which to graft Plum. As a rule it is best to grow Plum by transplanting the Seedlings and budding them.

FRUIT TREE STOCKS

Apple Seedlings—We still have a limited supply of Apple Seedlings in both American and French grown.

We import our Myrobolan Plum, French Pear, Quince and Cherry Stocks direct from the best growers in France and carefully regrade upon arrival. They will give satisfaction.

A block of two-year Americana Plum on Americana Roots. This photograph does not do justice to this fine block of Native Plum. We have a good supply of them in most sizes and can offer inducements on large lots.

A thirty acre block of two-year cut back Apple and view of the beautiful Nishna Botna in the distance.

Growing Apple Trees is one of our leading specialties. We have a good supply of a large list of varieties. As there is a strong demand for Apple it will pay to place orders early.

A Photograph of a block of our Black Hills Spruce, quoted on page 16. These have been twice transplanted, are bushy and nice with good roots.

The Black Hills Spruce is a valuable variety, superior to the Norway Spruce, being hardier and of much better appearance. It transplants more successfully than any other variety we have tried and stands severe climatic conditions such as drouth, heat and cold, retaining its beautiful color under unfavorable conditions.

A block of Pear, mostly Kieffer and Garber. We have a surplus of Kieffer Pear, first-class, two-year trees, budded on French Pear Roots. Can make special low rates on large lots.
